

BRAINERD GIRL IS CITED FOR HEROISM

CHICAGO HEAVILY GUARDED BY TROOPS ---IS NOW QUIET

The Presents of 6,000 Troops With Police Force Has Good Effect on Warring Races

Three Negroes Die of Man Who Started Chicago Race War Held For Murder

Chicago, July 31.—Race war terror and bloodshed had abated tonight after four days and nights of rioting, but violence continued to occur sporadically notwithstanding an army of nearly 10,000 state troops and policemen was on active duty in the south side negro quarters.

Three Negroes Die
Three negroes died today of bullet wounds, making the official corrected death list 32, of whom 18 were negroes. Only one of the three was shot today, though a dozen or more members of both races were wounded in the scattered disturbances, most of them of a minor character. There was no shooting by troops, who were ordered on the streets last night by Governor Lowden on the request of Mayor Thompson.

The negro district was comparatively quiet tonight. The presence of the state troops apparently had calmed the negroes' fears, and had a salutary effect on disturbing elements among both whites and blacks. The troops were well distributed and the military machinery was running smoothly.

Food for Black Belt
Food supplies were rushed into the negro sections by cooperation of the Wholesale Grocers' association, the police and the troops. The Black belt remained a barred zone where whites might not enter and even the guarded troops of groceries were driven only to the "dead line" by white chauffeurs who were relieved by negro drivers under police escort.

Many of the poorer negroes were reported in dire need of food and without funds. Today was pay day at the stockyards but negroes feared to go there to draw their wages. Thousands of negroes have not attempted to go to work all the week.

Militia Halt Whites
Among today's disorders only two involved any considerable number of persons. Several hundred whites in search of four negroes who had hidden in the stockyards were driven off by militia men with lowered bayonets after the whites had demanded that the blacks be delivered to them. No casualties resulted.

About 400 white men beat one of three negroes severely at Forty-seventh street and Vincennes avenue this afternoon. The other two, both armed escaped after firing a few shots. No whites were wounded. A negro was beaten by five white men at State and Twentieth streets. Two of the negroes who died today were found unconscious on the West side, far from the South side negro sections.

STRIKE SANCTION REFUSED

Shipbuilders at Superior Will Not Quit Work

Superior, Wis., July 31.—By an overwhelming vote members of the International Brotherhood of Shipbuilders and Helpers refused to sanction the strike which was to go into effect at 1:30 a. m. Thursday.

Fifteen hundred members attended the meeting last night.

Germans to Leave Lithuania
London, July 31.—The government of Lithuania has taken measures for the evacuation of that country by German troops. It was stated in a Bolshevik wireless message received today from Moscow.

Carranza Paymaster Robbed of \$25,000

(By United Press)
Martha, Texas, Aug. 1.—Big Bend sheriff and rangers are searching for a party of masked men alleged to have robbed the paymaster of Carranza's army of \$25,000 near here yesterday. The paymaster said his car was stopped by the masked men in an automobile near Oginaga opposite Presidio, Texas.

EXTREME PENALTY FOR MEN CONVICTED OF ARSON MURDER

(By United Press)
Chicago, Aug. 1.—Extreme criminal punishment for the men convicted of arson and murder in the race riot, will be demanded by the state attorney general, Brundage, and State Attorney Horne, who with their staff are investigating the race riot crimes. Upon investigation today the death rate stood at thirty-four, nineteen negroes and fifteen whites.

Ask Congress to Limit Profits on Necessities

(By United Press)
Washington, Aug. 1.—Congress will be asked to limit profits on necessities Senator Kirby of Arkansas announced today during a heated debate on high cost of living.

Fatal Cattle Disease Reported in State

(By United Press)
St. Paul, Aug. 1.—Anthrax, a rare and fatal disease among cattle in Minnesota, was reported by the State Board of Health at Montevideo today, according to Dr. Chas. Smith, Jr., secretary of the board. The disease, which is "unusual, has developed on four farms and one human being has become affected.

British Airmen Bomb Bolshevik Fortress

Helsingfors, Finland, Aug. 1.—Eight British aeroplanes today arose from the cruisers stationed in the Baltic Sea and bombed Kronstadt, a Baltic base, for forty minutes. Her batteries replied. The aeroplanes returned safely.

Indians Cannot Sell Land Held in Trust by the Government

(By United Press)
Chicago, Aug. 1.—George Stauber, age 23, alleged to have started the race war here by throwing stones at negroes at the white bathing beach, was charged with murder and held under bonds of \$50,000. The death rate reached thirty-five at noon today when Lewis Taylor, negro, succumbed to injuries.

Indians Cannot Sell Land Held in Trust by the Government

(By United Press)
St. Paul, Aug. 1.—Indians cannot sell the land held in trust for them by the government the circuit court decided. The Mahanomen Land company entered into a contract with Anton Gery for the sale of some land owned by Indians on the White Earth reservation. Gery paid \$2,000 on the contract. The land company then found that it could not give a clear title because it was held in trust by the government. Gery then tried to recover the \$2,000 and was awarded judgment.

President Continues Conference With Senators

(By United Press)
Washington, Aug. 1.—President Wilson invited Senator Watson of for a conference. Other appointments included three democratic senators and five representatives.

Discharged Aerial Postman and Strike Leader Who Took Grievances to Capital

E. Hamilton Lee

Charles H. Anglin

These two men, formerly United States army fliers, have been prom-

inent in the aerial mail postmen's strike which tied up the New York Washington and New York-Chicago services. The discharge of E. Hamilton Lee and Leon Smith was the primary cause of the strike, although the airmen declared that they were forced to make flights in unfit machines when the danger of death and accident, owing to weather conditions, was great. Charles H. Anglin, known as "Pop the Ace," was one of the aerial mail fliers who went to Washington to confer with the postal authorities.

A Brainerd Salvation Army lassie, Miss Signe Saunders, has been personally cited for heroism under fire. She was in early in war service and her little tent, where she made doughnuts for the boys, was close to the front line of fire, so close that daily the tent was shot full of holes and the stove pipe hit. But that never deterred Miss Saunders.

Her quiet heroism and the splendid doughnuts and coffee she made had its share in sustaining the morale of American troops.

Miss Saunders arrived in Brainerd today for a few days' visit and she will help in the Salvation Army drive. Arrangements are being made by Fred L. Sanborn, county director of the Salvation Army drive, to have her give talks at the Best theatre and open air meetings, and probably out in the county too.

Being a Salvation Army girl, Miss Saunders is accustomed to open air meetings. Returned soldiers will be interested in her message, as every doughboy has a warm place in his heart for the Salvation Army.

Miss Saunders is the foster daughter of Mr. and Mrs. David Northrup of Northeast Brainerd. She is a slight and slender girl with dark hair, vivacious and energetic. The Salvation Army "War Cry" published in New York recognized her devotion to her country by printing her picture, including also doughnut and rolling pin, on a cover page.

HARVEST BANDITS SHOOT SECTION HAND

Section Crew Imprisoned in Box Car After Being Robbed

Fargo, N. D., July 31.—One man was shot in the head and a score of others robbed when a band of five bandits, armed and masked, entered a bunkcar occupied by members of a section crew near Sanborn, N. D., last night, broke up card games in progress, confiscated all the money in sight and then forced the men to turn over the reserve supplies and other valuables.

Section Men Locked in Car
The bandits are believed to be the same who have been preying on the harvest hands in western Minnesota and the Dakotas. Similar holdups have been staged in which men returning from the harvest fields were the victims, and it is believed by the authorities that the bandit band at Sanborn was responsible for many of them.

After the Sanborn robbery the bandits marched the section hands out of the car to a freight car on a sidetrack, locked them in and escaped.

Railroad Fireman Shot.
Word of the robbery was telegraphed to George D. McDowell, special agent for the Northern Pacific here, after the cries of the men imprisoned in the car had been heard, and they had been released. The name of the man shot, he said, was Marshall, a fireman on the railroad. The amount of money taken is not known.

Predicts Chicago Street Car Strike Will Vote to Return to Work

(By United Press)
Chicago, Aug. 1.—W. D. Mahon, president of the International Car-men's Union, predicted at noon today that the Chicago strikers will vote 3 to 1 to return to work. Resumption of service at midnight is expected. Voting was heavy at thirty-five polls.

Polish Assembly Ratifies Treaty

Paris, Aug. 1.—The Polish National Assembly has ratified the German and Polish treaty by a vote of 285 to 141, according to advices from Warsaw.

Would Investigate High Cost of Shoes

(By United Press)
Washington, Aug. 1.—The resolution of Representative Igo of the federal trade commission to investigate the high cost of shoes, was reported to the House favorably today by the committee of interstate commerce. It will be called up tomorrow and an effort made to pass the resolution before the recess.

100 STEAMSHIPS ARE PURCHASED BY FRANCE, ITALY

United States Records Largest Shipping Sale of Eighty Millions; Delivery Aug. 10

Washington, July 31.—One hundred steamships built on the Great Lakes during the war have been sold by the shipping board to the Anderson Overseas Corporation of New York for approximately \$80,000,000. This is probably the largest ship sale on record, the board said in announcing the deal tonight, and the vessels will eventually pass into French and Italian ownership.

Delivery of the ships will commence Aug. 10, and proceed at the rate of six or more a week, until completed, Chairman Hurley said. As the sale is made on a partial payment basis, the board will keep a measure of control to assure provision of insurance protection and freedom from liens. The ships range from 3,300 to 3,600 deadweight tons draft.

Mr. Hurley made the announcement concerning the sale shortly before he left his office as chairman of the shipping board for the last time. Tomorrow he will return to private life, leaving for his farm in Illinois.

Dakota Ranchman Ambushed and Killed

Beach, N. D., Aug. 1.—A sheriff's posse today are searching the woods twenty miles south of here for E. W. Taylor, ranch hand, believed to be the man who killed K. Bowen from ambush late last night. Bowen died shortly afterwards. The shooting is a result of a feud of long standing it is said. Taylor is alleged to have been a member of a band who killed three hundred of Bowen's cattle last year by poisoning. Mrs. Bowen, who reported the tragedy, witnessed the shooting.

Mother, Sponsor for Torpedo Boat Named in Honor of Son Who Died in World War

This photograph shows Mrs. Margaret C. Overton standing at the bow of the U. S. torpedo boat Overton just before it was launched at the Camden yards of the New York ship-

WASHINGTON CONSIDERS THE INTEREST OF THE COMMON PEOPLE

President, Cabinet Members and Department of Justice Unite to Halt High Prices

Baker to Sell \$125,000,000 of Food by Parcel Post; See Licenses for Corporation

Washington, July 31.—Government machinery was set in motion today in response to demands from the public that some official action be taken to relieve the high cost of living.

Prices, as they affect the average citizen, assumed first place in interest in the capital. At the White House President Wilson was said to be giving "deep and very thoughtful consideration" to problems presented to him and the railroad administration by members of the railroad brotherhoods, who represented that prices would have to come down or wages go up, if social unrest was not to develop into upheaval. In the senate and house, the situation gave rise to resolutions to investigate the cause of existing price levels, another to reduce the volume of currency in circulation as a means of deflating prices, one requesting the attorney general to stop speculation in foods on exchanges, and another to sell this year's wheat crop at market prices instead of at the government guarantee, the difference to be made up by the government.

The war department does not know the total of the various kinds of surplus army foodstuffs it has to sell to the American people, although recent complications shows surplus stocks of a money value of over \$125,000,000.

It took four days to find out for the United States sugar equalization board that the total surplus of sugar was approximately 37,000,000 pounds.

Late today Attorney General Palmer met eight high government off-

icials for a discussion of high costs and the best methods to pursue to effect a reduction.

After a general talk, lasting nearly three hours, the conference disbanded to meet probably next week, for further counsel based on additional information to be collected in the meantime. Those attending the conference included Secretaries Glass, Houston, Redfield and Wilson, Director General Hines, Chairman Murdoch of the federal trade commission, Assistant Secretary of the Treasury Leffingwell, and W. B. Colver of the federal trade commission.

Sell Surplus Food.
As a step toward breaking the high prices, plans are being made by Secretary Baker, Postmaster General Burleson and Representative Kelly of Pennsylvania to sell through the parcel post surplus army food stocks valued at \$124,000,000.

New York, July 31.—Surplus army food will be sold to municipalities on a 30-day consignment plan, according to a message received tonight by Mayor Hylan from Deputy Commissioner of Markets O'Malley, who went to Washington to urge upon the war department a scheme suggested by the mayor which would enable city officials to place army food within reach of the people without paying for it in advance. Secretary Baker, said the message "settled the difficult question which has divided both factions of the house, by accepting your proposition."

(By United Press)
Washington, Aug. 1.—The time for action in meeting the high cost of living crisis was met today by Senator Kenyon of Iowa in an interview. Congress was flooded with nearly fifty resolutions and bills seeking release from high prices. Congress plans no immediate action on any of the resolutions he pointed out. Kenyon declared congress could pass one or more of the resolutions and obtain special relief.

The House plans to take one month's vacation beginning tomorrow. Out of the amount of resolutions and bills only one is aimed direct at the high cost of living, the resolution which requests the secretary of war to sell the over-supply of army food.

War Will Officially End When French Parliament Ratifies Treaty

(By United Press)
Paris, Aug. 1.—The state of war between France and Germany it was announced officially, will cease upon the publication in the Official Journal of parliamentary ratification of the peace treaty.

President Submits Protocol of Treaty to the Senate

(By United Press)
Washington, Aug. 1.—President Wilson submitted to the senate today the protocol to accompany the treaty with Germany, which provides that the treaty goes into effect when ratified by three major powers.

Mr. and Mrs. Milo Bedal motored from Brainerd to Trommald and spent the week end at the home of Charles Hoyez and Carl Berg, a brother of Mrs. Bedal and Mrs. Hoyez, who recently was honorably discharged from the Canadian army after over three years of active service, visited with them.

Mr. and Mrs. Ernest Butler and Mr. and Mrs. R. R. Wise left this morning on an auto trip to Chicago where they will attend the national hotel convention to be held from Aug. 3rd to the 15th. There are many new new problems confronting the hotel men of the country today and they thought it was necessary for them to keep up with the times and attend.

IOWAN KILLED AT SEA
Mine Sweeper Curlew Damaged by Exploding Mine

Washington, July 31—Robert I. Simpson of Iowa Falls, Iowa, was killed and another seaman injured in the explosion of a mine close aboard the mine sweeper Curlew in the North sea, the Navy department was advised today. Simpson was knocked overboard and his body was not recovered. The Curlew was damaged slightly.

Exempted for Reason.
When parliament of the commonwealth of Australia enacted a law some years ago prohibiting the employment of Asiatic and native island laborers in that country, the crews, divers and other workers in the pearl industry at Broome were Malays and Japanese. More than 1,500 Japanese were employed in the pearl-fishing fleets. For a time it was feared that the new law would destroy the industry, but he attempt was made to enforce the law.

MARRIED REGULARS TO BE SEGREGATED

PLAN IS TO PUT THEM ALL IN
THREE REGIMENTS SO THEY
CAN HAVE HOME LIFE.

QUARTERS FOR THE FAMILIES

War Department Believes This Not
Only Would Be Better for the Soldiers and Their Wives, but Would
Encourage Re-enlistments.

By EDWARD B. CLARK.

Washington.—Something new is promised in the United States army; that is Uncle Sam's regular army. It is proposed by the war department to put all the married regulars into three regiments and to station them at posts where there are living quarters for families and where the men can enjoy the home life.

Nothing of this kind ever before has been attempted in the service. In the old days of the regular army when an enlisted man took unto himself a wife he was not always certain that he could provide a home for her within the limits of the garrison where he was stationed. The result was that the wife frequently was compelled to live in some nearby town. The arrangement was good neither for the man, for his wife, nor for the military service.

It was found out in the old days, however, that married enlisted men who managed to secure quarters within the garrison for their families were likely to re-enlist in the service. This re-enlistment of seasoned soldiers was a good thing for the army. Apparently it is the belief of the authorities that by proper provision for the wives and children of enlisted men, re-enlistments will be encouraged and the service benefited.

Many Regulars Married Abroad.

It is said that 20,000 American soldiers married foreign brides while they were on service abroad. Of course not all of the 20,000 soldiers were regulars, nor anything like all of them, but it is said that enough regulars married to make it possible to create three regiments, the largest proportion of the enlisted personnel of which will be married men.

The soldiers who have married, and who are to be put into special regiments are called the F. F. V's. No, this does not mean First Families of Virginia, but Father of Family Veterans.

Two of the regiments into which married men are to be inducted are the Third and Sixth cavalry, both of them famous in American history for their fighting qualities. The Third and Sixth have seen service wherever the American flag has been unfurled, except in one or two places where machines alone entered into the fight. An infantry regiment with a large part of its personnel composed of married men also is to be named, but as yet the particular regiment has not been selected.

There was a good deal of marrying and giving in marriage in France during the stay in that country of the American army. The authorities of French municipalities where soldiers were billeted took a fatherly interest in matrimonial matters on behalf of the daughters of fair France. They did not want any of their girls to be deceived into marriage with men who already might have matrimonial entanglements, if entanglements is the right word to use. So it was that the mayors in many of the French towns obtained from the soldier who contemplated matrimony his home address, the names of his parents, and the name of his postmaster. Then before the marriage was allowed to be solemnized, the chief town official would write to the soldier's home to make inquiry concerning him. When the good news came back that the soldier

Captain Who Captured
Three German Machine
Gun Nests Single-Handed

Wearing the Congressional Medal of Honor, the Croix de Guerre and a Legion of Honor decoration, Captain Samuel Woodhill, of the Sixtieth Infantry, Fifth Division, has returned to America. This regular army officer single-handed captured two German machine gun nests and when his supply of revolver ammunition gave out captured a third nest with only a pick axe as a weapon. The Sixtieth Infantry has been ordered to Atlanta, Ga., where it will be held in readiness for further trouble on the Mexican border.

dier was all right the marriage ceremony was performed, perhaps by the official who had made the inquiry to establish the good reputation of the groom.

French Girls Are Attractive.

The larger part of the marriages contracted abroad were those of soldiers who were in what is called the S. O. S. area; that is the area of service of supplies. These men were charged with the great work of forwarding supplies of food, ammunition, clothing and other things to the men at the front. They were also charged with the building of parks for the incoming American troops, with the operation of the railroads and with dozens of other duties which were essential in order that the army might be able to fight a good fight.

French girls are pretty, vivacious, and what one might call fetching. To a staid old soldier, husband of a wife, and father of a family in far off America, and who could look on them with the aloofness of a patriarch, it was not surprising that many of the young unmarried Americans speedily fell victims to the arrow of Cupid, who shoots just as well in France, and perhaps better, than he does in the other countries of the world.

There have been some nonsensical ideas in America about the French girls. People have read about Paris, its extreme gaiety and its frivolity, but the truth is that there is no more frivolity in Paris than there is in some big American cities. In the provinces of France, in the small towns and villages, there is staidness of conduct on the part of the young women which well might be emulated in like places in America.

WOMAN'S REALM

FOR MEN ONLY

By MARGARET ROHE
(Written for the United Press)

God's noblest work is man, they say. But just 'twixt me and you I think some tailor person had still quite a lot to do.

New York, Aug. 1—Good fortune, good health and a good wife are as nothing in a man's life compared to a good tailor. Even a self-made man, if he be wise, ends by being a tailor-made man. Almost every man, though he may not care to admit it, owes almost everything to his tailor, as a glance over said tailor's books undoubtedly would reveal.

It's really not so much a question of what a man shall put on these days, however, as what he may put off. With all the girls shedding garments in reckless abandon to the fore and aft of them—petticoats, stockings and gloves—it certainly seems as if poor mere man ought to be allowed a little abandon on his own account.

One of the sizzling nights last week wilted New York sat up and took notice of three brash, not to say rash, South Americans who appeared at a Roof show all dolled up in perfect informal summer evening attire. They were well fitted pumps, silk hose, irreproachably pressed trousers, soft pleated white silk shirts and black bow ties. All complete save for one little detail. Instead of the conventional dinner coat, the only coat each wore was one of tan.

Now this though thin apparel was really a bit to thick. Even though you panted with the heat, Convention as well as Fashion insists that you be coated as well after 6 p. m. in the public eye. Negligee shirts sans coats were quite de rigueur at the ringside of the Willard-Dempsey fight. They even go very well of an evening among the denizens of Casey's Bar or I should say Pink Tea Emporium but as the height of taste and fashion at a Roof Garden they are much to low.

Still Monsieur Le Mode who tryannizes as completely over his male minions as Madame La Mode does over her feminine ones, seems blessed with a few humanitarian qualities. He tends more and more towards comfort and common sense in male attire each successive season. Hence the gradual disappearance of the stiff choker collar, the stiff bosomed shirt and the padded shoulder.

Now even for evening wear the collars are low and comfortable, whether they be the turn-over brand or the winged variety. Dinner jackets of lightweight porous fresco cloth are permissible for all but the most formal of summer evening functions and here's where man may actually shed something, even if it isn't his coat. His lightweight unlined dinner packet with its shawl collar of black satin is so constructed that it may be worn guileless of a waistcoat. To be sure the coat discreetly keeps itself close buttoned so as not to reveal unduly it's waistcoatless condition, but thanks to this altruistic hot weather fashion, there are as many correctly and comfortably garbed waistcoatless men these summer evenings as there are coolly, chic petticoatless women.

With such a long stride taken in the direction of comfort, who knows but that the next step in the emancipation of the male from cartorial serfdom will follow further in the footsteps of the more freely frocked feminine so that he may yet bob his trousers even as she has her skirts.

Entertained at Tea.

Mrs. W. H. Gemmell entertained at tea Tuesday afternoon for Miss Gemmell of Ottawa, Canada, and Mrs. Forbes of New York city.

OLD PAPERS—5c BUNDLE

Business Man

Sings Praises

"I suffered for years with stomach trouble and gas continually. Doctors thought I had stomach ulcers or cancer. After last attack they advised going to Rochester, Minn., for an operation. A friend advised trying Mayr's Wonderful Remedy, which I did, and I cannot sing its praises too highly, as I can now eat anything and everything." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and druggists everywhere.

Perseverance Class
The Perseverance class of the Evangelical church of N. E. Brainerd will meet at the home of Mrs. J. Rudolph, 4th Ave. N. E., tonight.

W. C. T. U. Social
An ice cream social will be held tonight under the auspices of the W. C. T. U. at the home of Mrs. A. E. Thayer, 726 4th Ave. N. E.

Fireside Club
The Fireside club of the Norwegian-Danish Lutheran church will meet this evening at the home of John Larson.

Ice Cream Social.
An ice cream social will be given tonight at the Swedish Bethany church, corner South 9th and Maple streets by the Ladies' Aid. All are welcome.

BUTCHERS' PROFIT 100 PER CENT IN NATION'S CAPITAL

Facts and Figures Presented to Committee Indicate Profiteering by Retailers

Washington, July 31—Figures showing that retail meat dealers in Washington are averaging 100 per cent profits on all sales of meat were cited today before a senate District of Columbia sub-committee investigating living costs in the District.

E. A. Calvin, representing the Cotton States official advisory marketing board, told the committee that while, on July 1, retail dealers in Washington, according to figures of the department of agriculture were paying from 18 to 19 cents a pound for dressed beef, they were disposing of the entire carcass at an average price of not less than 40 cents a pound. The witness said the same profits were being made today.

The butcher or retail dealer, said Mr. Calvin, when selling at 100 per cent profit, adds more to the cost of the meat to the consumer than the combined profits taken by the farmer, the live stock dealer, and the packer with transportation and storage charges included. And he adds that profit, said Mr. Calvin, for "Simply cutting the meat and handing it over the counter to you, assuming no risk whatever."

The witness also cited beef quotations at Boston, Philadelphia, Pittsburgh and other large cities, showing that although the price of dressed beef to the retailer declined on an average of 25 per cent at those points from July 1 to July 15, there was an average decrease of only 8 per cent in the price to the consumer.

"These figures show," interjected Senator Capper, Kansas, a member of the committee, "that the retailer is profiteering."

SUFFRAGE RATIFIED BY MONTANA SOLONS

Helena, Mont., July 31—Montana completed ratification of the federal constitutional suffrage amendment late Wednesday when the senate passed it with but one dissenting vote. The bill passed the house yesterday.

Just a Chicken

(By United Press)

Paris (By Mail)—Egg shells, not bomb shells, are matters of the chief importance in Douai nowadays.

The first newly hatched chicken in the devastated town of Douai, Department du Nord, stuck an uncertain yellow head through the hole in its shell a few days ago, to the breathless interest of crowds of children and grown folks.

It was not only the first chicken hatched in Douai since the war, but the first one ever hatched there in an American incubator. They are still talking about it excitedly at the corner cafe. The glass fronts of the two incubators, the gift of the American Red Cross to the town, have been besieged by the children since they first arrived.

There are now twenty-five eggs in each incubator. Five eggs apiece are supplied by the ten families who hover about with proud, if anxious expressions.

How to Get On.

Practice you, self, for heaven's sake, in little things; and thence proceed to greater. This is the advice of Epictetus.

You Need Not Travel

It is safe to say that as many persons have secured relief from hay fever and asthma at home by taking Foley's Honey and Tar as have been benefitted by going to health resorts. It heals and soothes the choking, "stuffed-up" sensation. Good for all colds, coughs and croup. Contains no opiates. H. P. Dunn. mwf

Were Married 1,000 Feet Above the Earth

The nearest approach to a "marriage made in heaven" will be witnessed by the thousands who attend the windup of the New York police field days at Speedway Park, Sheephead Bay on Saturday. Lieutenant George R. Burgess, U. S. Air Service, and Miss Milly K. Schafer of Brooklyn, will be married while they are one thousand feet in the air. They will be in one airplane, piloted by the bridegroom. The officiating clergyman and the best man and bridesmaid in another plane. The "I do's" will be spoken into radio telephone instruments and loud speaking telephones installed in the grandstand will magnify the words spoken in the air so that the audience will be able to hear the ceremony.

Definition of Kindness.

The teacher of the intermediate room had been trying to teach her pupils the value of many virtues—such as truthfulness, honesty, kindness, etc. To test their knowledge she gave them an examination, asking for definitions for these virtues. One youngster defined kindness in this way: "Kindness is being kind to every human creature from a ant on up."

Where He Got the Name.

The first bulldog appears to have been bred from the English mastiff, and by process of systematic selection in breeding a smaller and more active dog than the mastiff was evolved. The smaller dog was found to be better suited for sport than the heavier and slower mastiff. The bulldogging dog, without a doubt, required an inordinate amount of gameness.

Triumphs From the Fashion Show

To attend one of the fashion shows, staged by the Fashion-Art League of America is to come away, convinced that Americans might sign up a Declaration of Independence in the matter of fashions without sacrificing anything of beauty or style. They do not choose to do this and they do not follow slavishly the lead of other lands, but look to all quarters of the world for inspirations. These they adapt to suit our needs, and also they create for themselves such examples of loveliness as are revealed in the two evening gowns pictured here. Great American names are signed to them, and the gown at the left is one of the triumphs of the last fashion show.

This "Papillon" gown has as a foundation a green and gold metal cloth that shimmers through a veiling of gray tulle. Three full flounces of tulle are placed above the bottom of the skirt and a tunic of tulle is edged with a fringe of it. The bodice slopes down from above the bust line at the front into a wide girdle at the back. Here it gives as much countenance to the backless gown of Paris as one may expect from an American designer. An overbodice of the tulle covers the shoulders and forms short sleeves. The

effect of a short, square train is made of wide green and gold ribbon, brocaded with a butterfly pattern, that is set into the girdle at each side and joined at the middle with two gold roses. These roses are small and full bloom, made of a gauze and appear unexpectedly on the tunic, where it is draped at the back. They strike the high note that finishes off a gorgeous and beautiful gown.

"Gorgeous" does not fit as a description of the gown shown at the right, but "brilliant" belongs to it. It was made of black satin, black tulle and jet by a famous designer, whose brain seems to be an inexhaustible picture gallery of lovely apparel for woman-kind. The skirt is adapted to fall in about the ankles, revealing them and the silk-and-satin-clad feet. The black tulle overbodice has long and full-draped sleeves, a wide girdle of brilliant jet embroidery and strands of jet beads over the shoulders. A long, generous strand of them falls from the front of the bodice.

SEES BILLBOARD AS EYESORE

Writer Denounces Monstrosity as Destructive to Every Standard of Civic Beauty.

Reasonable people no longer expect to take a railroad journey without having to look at billboards advertising shaving soap or toothpowder, set in the midst of the choicest scenery.

It lends a shudder to the thought of man's conquest of the air that soon, perhaps, we shall see the sky plastered over with chewing gum ads, a writer in the Boston Globe laments. With what regret shall we look back to the days when we could lift up our eyes to the clouds as a relief from the grievous handiwork of man. But not much longer. The dark underside of a good black storm cloud is too good a billboard to be neglected. Directly the art of throwing letters of light against the heavens is perfected we shall need a "blue sky" law with a vengeance.

Within certain limits the billboard has its proper function, one which no one need resent. It is largely a question of "the eternal fitness of things." We do not resent a screeching monstrosity of lumber and paint which defiles the serenity of a placid landscape or the privacy of a residential street by attempting to blackjack our intellects into buying some particular brand of some particular article which we do not want. A public opinion which tolerates this wholesale disfigurement must be in a somewhat rudimentary state as regards its standards of civic beauty. Eyes which are forced to grow accustomed to such physical ugliness grow desensitized to ugliness of all sorts and are prone to tolerate ugly speech and thought and action.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

FRIDAY, AUGUST 1, 1919.

THE PENNANT RACE

The Dispatch has watched every phase of the pennant race in the Central Minnesota Baseball League of which the Brainerd city team is a member.

The race has now narrowed down to Brainerd and Little Falls and the crucial game will be that of Sunday afternoon at the Koenig grounds when Little Falls promises to have a regular McGarry-Walker tour crowd of their fans present.

Both teams have excellent pitchers and battery mates. For Brainerd there is the veteran Patterson of Chicago Cub and Minneapolis league fame, backed by seasoned Fuller.

For Little Falls there is the Montanan Wood who has made a most excellent record as a heater. His received is Armstrong.

Supporting these players both teams have a line of good hitters and good fielders. Brainerd fans predict a 5 to 3 score in favor of Brainerd.

Little Falls predicts it will win providing Brainerd does not show up with a bunch of horse shoes in the proverbial eleventh hour.

Show you're a fan, that you love baseball and get down to the game Sunday afternoon. The management is sorry to say that there are some Brainerd people who have never attended a game of baseball in the park, preferring to sit on the hillside.

HOW TO SAVE

Get what you really want!
 Don't buy what you don't need,
 is one of the first elements of saving.

Think first how many hours of work each purchase will cost you.

Steady saving will bring a home, a business, or something else worth while within your reach.

Saving money is easy with War Savings Stamps. They are always worth more than you paid for them.

No German Swarm in the Argentine

(By United Press)

New York, August 1.—Fundamental national principles of the Argentine government will prevent any overwhelming swarm of German emigration to that country, according to Dr. Romulo S. Naon, Argentine minister to the United States. Naon's opinion was set forth in an interview with the New York correspondent of "La Prensa," of Buenos Aires, just before the South American diplomat sailed for home.

"I place little credence in the report that the German government will encourage emigration and settlement in Argentina of some five million Germans," said Naon. "The policy of Germany in the matter of emigration was always opposed to nationals to leave the country and settle abroad. I don't think such propaganda aiming at encouraging a policy will be modified in moments like the present. Today, more than ever before, Germany needs the co-operation and the assistance of all her children for the reconstruction of her economic and financial capacity.

"But even admitting that the German government or private corporations cherish such a plan, I think its execution is equally impossible because fundamental reasons of national Argentine policy are opposed to it. Argentina cannot admit colonizations favored by foreign governments because this would be highly detrimental to the formation of national sentiment which needs to be fomented, especially in countries in process of formation.

"Nothing that might even remotely cause the formation of a state within a state, could be viewed differently by the people of Argentina."

LICKING THINGS RIGHT IN HIS LINE

Licking things seems to be right in the line of Editor Lee Bennett of the Pillager Herald.

After some time spent by him in France and Germany seeing that the Kaiser got licked good and plenty, the government has now made him postmaster of Pillager and Mr. Bennett will now tackle stamps instead of Alf Hohenzollern.

The appointment of Bennett meets with general favor all along the line.

Senatorial Humor

(By United Press)

Washington, July 31.—Occasional flashes of humor lighten the seriousness of the senate league of nations battle. Here are three stories the league debate is responsible for:

Senator Williams, Miss., was explaining that though the league covenant was not all the United States desired, it was all we could expect under the circumstances.

"Which reminds me of my little girls," he said. "One had straight

"Ten days for a little spurt like that!"
WALLACE REID in "The Roaring Road"
 A Paramount Picture

At the Best Theatre Today

hair, while the other had curly hair. The straight-haired one was envious of her sister's ringlets, and often used to grumble because her own tresses refused to curl.

"One day the curly haired one was grumbling about some fancied hardship, and her sister rebuked her thus:

"Well, you know, you can't have everything AND curly hair."

And Senator Knox, shaking his head over glowing predictions of the way the United States is to lift weak nations from their lowly condition, said:

"That makes me think of the drunkard who was lying in the gutter, unable to rise. Nobody paid any attention to him until another, not quite so drunken, came along, and asked what was the matter.

"I can't get up," said the recumbent one.

"I'll pick you up," volunteered the other, and suiting the action to the word, he tugged and pulled, but succeeded only in toppling himself over.

"Tell you, friend," he said finally, "I can't get you up, but here's what I will do—I'll lie down with you."

Senator Swanson was discussing what will happen to those senators who oppose the league.

"They'll fare like the plowboy," said Swanson. "He was plowing his field when an inquisitive passerby asked him how much wages he received."

"Wages?" said the boy. "I don't get no wages. I get nothin' if I do, and hell if I don't."

Mounted Police in Southwest

(By United Press)

Oklahoma City, Okla., August 1.—Suggestion of St. Mihiel, Gibraltar and Pancho Villa rained Oklahoma City today as the new mounted police trotted picturesquely to their first day's duty.

The department was composed of picked overseas men, uniformed like brigadier generals and armed like superdreadnaughts. Each man at first might have been mistaken for an overseas marine officer, jaunty cap and all, except for his equipment.

A .45 caliber automatic pistol hung from his Sam Brown belt and on the back of his bayonet and scabbard. A 10-gauge riot gun, slung at a secure point, recalled German protests at the "inhumane" shotgun used by Americans for guard purposes.

The service will combine the duties of patrolmen, militia and detectives. Special equipment for sleuthing is provided in the gumshoes worn by the police horses. Mayor Walton will not have his policemen's movements disclosed to desperate criminals by noisy trotting, he says.

TWO PROFESSIONS OPEN.

"Well, Mr. Pedagogue, does my boy show any special aptitude for work?" asked the proud father.

"I think so, Mr. Bronson," answered the schoolmaster. "I am not certain as yet whether John will make a sculptor or a baseball player. He is tugging in his arm with paper wads, but the condition of his desk top convinces me that he can carve with considerable facility."—Philadelphia Inquirer.

Longing for New Worlds.

"So you think mechanical ingenuity has nearly reached its limit?"

"No," replied the man who thinks a great deal without getting much result. "But we've conquered the land with wheeled vehicles, the sea with boats and the sky with airplanes. What puzzles me is where we are going next."

 Russian Admiral, Who Had to Get Shipbuilding Job Here, Again an Admiral

Before the Reds seized the Russian government, Baron Othon de Richter was an admiral in the Russian navy. He was set to America on a special mission and while still engaged in that work Lenin and Trotsky became dictators. He found himself without a job but a "Help Wanted" ad got him a job as a ship rigger with the Emergency Fleet Corporation at seventy-four cents an hour. He worked in the ship yards until recently and then had an opportunity to join the staff of Admiral Koldhak in active service against the Red forces in Russia. Again he is an admiral.

Advertisements on Trees.
 Already in nine states the nailing of advertisements onto trees, sides of barns and fences within the limits of highways and on property of persons owning land, without the owner's permission, is prohibited by law. Col. Edward S. Cornell, secretary of the National Highway Protective society, stated at Boston when commenting on the work his society is doing to beautify and preserve the highways of the United States.

Aside altogether from the standpoint of beauty, said Colonel Cornell, nailing of advertisements onto trees is harmful to the trees themselves and also the fact that heavy nails are left embedded in the wood renders the work of sawing them into lumber dangerous to the workers later.

Colonel Cornell added that a bill to prohibit unlawful signs on highways had recently been introduced in the lower house of the Illinois legislature.

Workers' Home Urged.

The war provided a great impetus to the movement for decent homes for employees, said Noble Foster Hoggson, president of Hoggson Bros., builders, of New York.

"Under governmental auspices and with government money," he added, "plants engaged in war work undertook to create villages designed along model lines to house their workmen, and so reduce shifting of labor from place to place.

"To ignore our housing needs in our future calculations will be no less than a calamity. A man holds his home sacred above all things. Take his home away or the right to create a home and you will produce wanderers living under conditions not fit for animals. The result is new members for incipient bolshevists."

IDEAS FOR THE PUBLIC PARK

Points That Should Be Given Consideration Before the Final Plans Are Made.

In the landscape architect's ideal conception of an acre of park for every hundred inhabitants, there is no guide for calculating park space appropriate to a town of 5,000. It is evident that an acre, more or less, would not be a determining factor in its value. The problem of relative size is really a local one, its answer depending on the community's facilities for outdoor enjoyment, on the benefits that will accrue to it by the acquisition of a park, and on the specific idea which lies behind the desire for a park.

Camping and picnicking, two legitimate park uses, both suggest an appeal to the motorist. A good camp site is pre-eminently adapted to the attraction of strangers, thereby bringing some added trade to the town merchants. For the camper's good drainage is essential.

A fitting entrance is the first important consideration. If the park is near the business section of the town, extending the approach to the main street by means of a parking strip planted to trees is very effective. Such a strip, extending for one block along

Brick Pillars, Elaborated into a Pergola at One Side and Carrying a Lantern at the Other, Form a Very Effective Entrance.

the middle of the street from the park entrance, with pillars of suitable design at the end, will cost not less than \$500. Formal park entrance pillars of brick or stone may be elaborated to a vine-draped pergola on each side, costing complete at least \$350. Or a rustic entrance, to harmonize with a wooded area, may be constructed of timber from the clearing of the site. Only sound logs and limbs of durable wood should be used. For such an entrance of appropriate size, 200 hours of labor must be allowed.—Popular Mechanics Magazine.

BUILD ON RIGHT PRINCIPLES

United States Housing Corporation Gives Outline of Plans Made for the Future.

Women are to be consulted in the planning of homes in after-the-war building, according to the announced policy of the United States Housing corporation.

"When our men want to find out what plan to follow in building a workman's home they usually talk it over with headquarters," according to a statement by the United States Housing corporation. "Headquarters they find invariably in the kitchen. The greatest housing experts are the housewives themselves. They know when arrangements are convenient and where steps may be saved in the daily routine of work. Many of our standards representing the greatest convenience and the greatest beauty that the money invested will buy are the result of home-need suggestions from women.

"In all building projects the government's standards have been placed on a high plane. The women of the country will see to it that in future private development must measure up to these standards. All specifications for drainage, ventilation, lighting and kitchen fittings must be maintained on the present level. No slum back into the pre-war tenement will be tolerated by the workers. In all future building projects, whether sponsored by the government or by individuals, every house will be required to have a maximum of light and air.

Municipal Forest Parks.

That municipal forests could profitably be established by many cities is the opinion of Edmund Secrest, forester at the Ohio experiment station. His opinion is based upon the fact that there are many municipal forests in New England and that such woodlands have been established in Europe for 500 years.

"Many municipalities have areas of rough or hilly lands near their limits, which in many cases may be already partially covered with native forests. In other sections planting could be done to reforest cleared land, which could easily be converted into a forest park."

Building Workers' Dwellings.

As many workers in Galt, Ont., are compelled, owing to the dearth of houses, to have their homes in surrounding towns and villages, the city council is applying to the government for a loan of \$250,000 under the conditions named in the provincial housing act. The appropriation will be used to build a hundred dwellings.

AMUSEMENTS

At the Best Today
 Wallace Reid has always been a speed demon, within limitations. The Paramount star has trouble in keeping within the speed laws even in his own car, such is the impulse to crowd on the juice and hit only the high spots. He admits however, that when he got up to 90 miles an hour the other day at Santa Monica, Calif., while making scenes for "The Roaring Road," his new Paramount picture, which will be displayed at the Best theatre today, he went as rapidly as he dared to go.

He had not even a mechanic with him, but only Guy Oliver, of the stock company. At one time going 90 miles an hour, they barely escaped a spill that would probably have been fatal.

"I simply held my breath," remarked Oliver, "and waited for the smash." Wallace Reid doesn't say how he felt about it.

At the famous Santa Monica death curve, they made higher speed than ever before in the history of auto racing at that particular spot. Mr. Reid's car skidded taking the turn and the driver of another speed car skidding wide to avoid a collision, grazed the curb for a block.

From all accounts this is the most exciting picture in which the athletic star has ever appeared. Ann Little is leading woman and there is an excellent cast supporting them.

And-Hearted Farmers.
 One day a little city girl came to the farm, and when she saw a windmill she said: "Oh, how good the farmers are to the pigs; they have electric fans to keep them cool."

Slavery.
 The Portuguese were the first to hunt negroes in the interior of Africa for use as slaves in the colonies. The first shipment of negroes to the New World took place in 1503, when the Portuguese landed some in Santo Domingo. From that time to the nineteenth century traffic in negroes across the Atlantic was carried on.

MAYOR LITTLE WINS DELEGATES' HEARTS

Members of State Veterinary Medical Association Stirred by Address of Welcome

BACK TO TRY NEW WATER HERE

Hospitality of Brainerd Chamber of Commerce, Brainerd People in General Enthused Them

When Dr. C. A. Sotaen of Windom returned home from the Minnesota State Veterinary Medical association convention held in Brainerd, he gave his home paper, "The Windom Reporter," a column account of proceedings in Brainerd.

Mayor F. E. Little

Speaking of Mayor Little he said: "After supper we again got together at the Chamber of Commerce rooms and our biggest treat was given us by the mayor of Brainerd, F. E. Little. Let me say right here that he should not be judged by his name. He is a big man and gave us one of the best welcomes ever given to our conventions anywhere. His talk was full of pep and civic pride and he also stated that in anticipation of the drought, since July 1, they were now installing waterworks to cost about \$300,000, and that he hoped when we came there again that we would not leave the city dry.

"The forenoon program consisted of reports of various committees and the president's address. Brainerd can justly be proud of Dr. C. A. Nelson, our present president."

Dr. Sotaen reviewed the various papers read at the convention. "In the afternoon," he said, "we were taken for an auto tour to some of the beautiful dairy farms near Brainerd.

"In the evening a smoker was given by the Chamber of Commerce and some of the best talkers of the city entertained us until the small hours in the morning and each and every one of us agreed that Brainerd and its people are justly proud of their city which is located among the 10,000 lakes and I am sure that when I say I will always look forward with hope that we again may be able to gather there and to be able to test out their \$300,000 water system.

"You could not help but feel that no matter where you came in touch with people in Brainerd the city was yours and the best wasn't any too good for you.

"Personally I feel that a trip of this kind has repaid me a thousand times, so let us go home and make use of the stimulus received and tell our own townspeople and neighbors our viewpoints, for in this way we will become more able and better qualified men."

LANDS FOR SHEEP PASTURE

Iowa Man Lists Land in Cass County With Mayor F. E. Little

The campaign carried on to interest Montana sheep and cattlemen in Minnesota pastures to save their flocks and herds is being taken notice of in neighboring states.

Mayor F. E. Little has received a letter from Frank Nulfin of North English, Iowa, who offers 480 acres in Bull Moose township, Cass county, for pasture purposes.

His letter was turned over to County Agricultural Agent E. G. Roth.

QUICK GAIN IN VALUE

Lots Near Sixth and Main Streets, Gain \$1,000 in Value in Week

An increase of \$1,000 in value gained in a week was recorded in the real estate transaction of William Graham, who bought the Dick Herbert restaurant building and six lots near Main and Sixth for \$5,000 and sold them shortly after to P. A. Erickson, the florist, for \$4,000. Mr. Erickson will build a greenhouse on the property.

A Grateful Woman's Story

Mrs. Robert Blair, 461 S. 20th St., Terre Haute, Ind., writes: "After taking Foley Kidney Pills a few weeks I found my kidney trouble gradually disappearing. The backaches stopped and I am also free from those tired spells and headaches and my vision is no longer blurred." They stop rheumatic pains. H. P. Dunn. mwf

LEGS CUT OFF IN RAILWAY ACCIDENT

Deerwood, Minn., Aug. 1—Both legs cut off at the knee was the result of an accident to James McGee, section foreman of the Northern Pacific railway at Deerwood, when he fell from a cinder car which was being switched there this morning at 9 o'clock.

The train crew rushed the injured man to the Brainerd railway hospital where everything is being done to save him. He has a wife and family.

3,000 MORE SHEEP COMING TO COUNTY

Crow Wing county will soon receive 3,000 more sheep from Montana to pasture here. The second shipment, like the first, will be made by Gunby & Morgan from Bozeman, Mont. The first lot of 2,700 is now eating the succulent grasses of Platte Lake township south of Brainerd.

The second shipment, expected next week, will be pastured on lands north of Crosby.

DISCUSS MARKETING CONDITIONS HERE

Meeting farmers and business men Mr. Hughes of the state department of agriculture, discussed in the afternoon at the Chamber of Commerce marketing and market conditions.

Hay, stock, produce, etc., were taken up in detail. The meeting was called on short notice and farmers were notified as best the county agricultural agent was able to do.

BAND CONCERT TO BE TONIGHT

The Brainerd Municipal band gives its regular weekly band concert, delayed last Wednesday by rain, at Gregory park tonight. A fine program has been arranged by Director Richard H. Rehl.

BEGGARS WORTH THOUSANDS

Blind Couple Who Were in Brainerd. Arrested at Austin This Week

A blind couple who solicited alms in Brainerd, Little Falls and other towns, was arrested in Austin and found to possess more wealth than the people who had kind-heartedly contributed to them on street corners.

At Austin it was ascertained the couple was worth \$100,000 and they have been touring Minnesota, securing \$100 a few weeks ago at one place with two little girls acting as their solicitors. At that time state agents were on their trail and finally got them at Austin.

It seems to be something like an imposition to beg money when such beggars have a wealth of it hoarded away somewhere.

Farrar Verdict Affirmed

(Duluth News-Tribune) The state supreme court has affirmed the verdict of the county district court jury in its decision in the case of Genevieve E. Farrar, widow of Arthur Farrar of Duluth, formerly of Brainerd, against the Locomotive Engineers' Mutual Life Insurance and Accident Assurance association, which awarded the plaintiff a judgment of \$2,000. The plaintiff was suing for the full amount of a policy held by her husband, who died as a result of gas asphyxiation. The defendant contended that the death was a conclusive case of suicide.

The policy provided that payment should be made if death resulted from an accident. Mr. Farrar was employed by the Northern Pacific and in January, 1916, he met with an accident. The plaintiff alleged that the accident caused the mind of the deceased to become unbalanced. Later he was found dead in a room filled with gas fumes, plaintiff claiming that this was due to a defective jet in a gas stove which was in the room, according to the testimony of the trial.

FRANCE AND GERMANY RENEW MAIL SERVICE

Paris, Aug. 1—Postal communication between France and all parts of Germany was reopened today.

Men and Women Slow Up

Nowadays many persons wrongfully attribute backache, rheumatic pains, sore, swollen, aching joints and muscles and that "always tired" feeling to on-coming age when the real cause is kidney trouble. Foley Kidney Pills help the kidneys throw out of the blood the impurities that cause these symptoms. H. P. Dunn. mwf

CON O'BRIEN BUYS CITIZENS BANK BLDG.

Con O'Brien, one of the largest owners of realty in city and county, has added to his Brainerd holdings the Citizens State bank building, the large three story brick building owned by the Parker-Dunn corporation. The consideration was not made public, but is understood to exceed \$60,000.

MORE LIFE

"I have come that they might have life and that they might have it more abundantly."—Jesus.

In my article on "Intelligence," I made the statement that the purpose of life is the development of individual character. The above statement by Jesus does not contradict my statement but rather confirms it.

Nature is always at work developing life, but Nature alone can not develop a human character, good and true. To this end man must co-operate with nature and nature's purposes. Nature alone develops a man, but man himself determines his own character and destiny by the good or bad use of the powers and faculties given him by Nature.

To all students of Nature it is made clear that there are two principles at work everywhere, one constructive and the other destructive. Health is the natural condition of the individual who lives a constructive life.

The primary causes of all diseases are ignorance, selfishness and self-indulgence. Jesus came to reach man how to live a constructive life, and only this can develop in man "The more abundant life" in which full satisfaction and happiness can be realized. Man must be healthy in body and soul, particularly in the soul, in order to be happy. The greater and the more abundant the life force, the greater the enjoyment of life.

In order to develop that life "more abundant" man must learn how. Great moral teachers like Jesus have been trying to teach man how, but that task, for the time being, has always been the seemingly most useless task that any individual took upon himself to do. Man, as a rule, does not like to be told how to live, but just the same, there may come a time when the soul, who has been living a destructive life, will have been whipped into line by suffering the natural consequences of his dissipation. He may then be willing to humble himself and say, "I fool, I knew better." He may now be willing to listen to the great teachers of humanity, who spent their lives unselfishly to show and to teach how to live a life in harmony with Nature's constructive principle and thereby develop "the more abundant life."

When a farmer wants to secure a large crop, he must farm according to the most scientific knowledge of farming. The same principal holds good in the development of a human soul. Man must learn scientifically how to live the life in such a manner that Nature can develop in him more life, which constitutes a fulfillment of his supreme desire for happiness.

During my four weeks stay in Chicago last February, I had the opportunity to hear lectures on disease and health almost every day. "Back to Nature" is the slogan. "The Nature Cure Philosophy" is the coming philosophy of medical science. It will be in principle the religious philosophy of the higher civilization.

Nature is always working for good, to set wrong things right when given a chance. To trust in Nature is identically the same as to trust in God, because God works in Nature. The coming physician is going to become the moral teacher, in so far as he can instruct his patients how to live in order to keep healthy.

In a higher civilization than this, the work of the preacher or religious instructor and the physician will be one profession and one office. To my surprise, I found in Chicago a new church or religious cult called, "The Church of the New Civilization," which had a practicing physician as its pastor. The reason why this must come is that the principles of health and disease are the same in man's threefold Nature: physical, spiritual and psychical. The physician's duty is to help nature heal the sick in body and mind, and the preacher's duty is to teach man how to live a constructive life so that Nature can develop the soul towards perfection and happiness, or, as the great moral instructor Jesus said: "That they might have life and that they might have it more abundantly."

LARS ERICSSON

Optimistic Thought. Men should be temperate in eating as well as in drinking.

ROLL OF HONOR

John T. Stilwell and Fred Sundine of the 3rd Pioneers, are expected home tonight.

2,400 Minnesota men from overseas including the 3rd Pioneers, are on their way home. Thursday night's train brought many to Brainerd and the country north. The Friday afternoon train from St. Paul carried more. Edward LeMire of the 3rd Pioneers, returned home Thursday night.

John O'Connor of Bemidji, 541st Engineers, is expected home tonight.

Obituary.

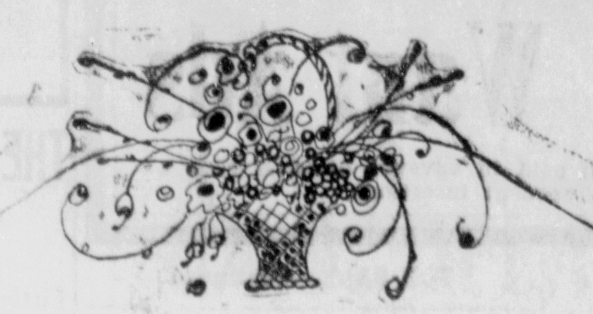

Henry Julius Van Horn, son of James M. and Inez Van Horn, 1624 19th street N. E., was born May 29, 1913. His stay was not to be long in this world for on July 31 the Heavenly Father took him into the better world. He was 14 months, two days of age. Death resulted from spinal meningitis. He leaves parents, two brothers and other relatives to mourn his early departure. One brother has preceded Henry to that blessed abode of the pure in heart. May God bless the sorrowing ones with the riches of His grace, and grant them finally a happy and eternal reunion in Heaven.

MARKET REPORT

Minneapolis Cash Grain
Wheat—No. 1 Dark Northern, \$2.95 to \$3; No. 1 Northern, \$2.70 to \$2.90.

Allies Demand That Hungarian Soviet Leader Abdicates

(By United Press)

Vienna, July 31 (Delayed)—A final decision is to be taken at Budapest tomorrow on the demand of the Allies that Bela Kun abdicates as Hungarian leader. British Commissioner Cunningham on behalf of the Allies, demands that Bela Kun abdicate.

TURKS AND TARTARS TIGHTEN DEATH GRIP ON ARMENIA

American Mayor Wires that Disasters May Eclipse Massacres of 1915—Ask for Allied Intervention

Paris, July 31—Turks and Tartars are moving on the Armenians from three sides. They have cut off the American relief supplies and threaten all the remaining Armenians with extermination unless additional protection is afforded, according to dispatches from Major J. C. Green of Cincinnati, who is directing the American relief administration's work from Tiflis.

Herbert Hoover, director general of relief, immediately submitted Major Green's message to the peace conference, which already had similar reports from other American and British observers.

Major Green, under date of July 23, sends the following from Tiflis.

"Had a long conference with the President today. The situation is worse. The Turkish army, well prepared, and Tartars are advancing from all three sides. If military protection is not afforded to Armenia immediately, the disasters will be more terrible than the massacres in 1915, and the Armenian nation will be crushed, to the everlasting shame of the Allies.

"Relief work is impossible in the present situation unless order is restored. Cannot something be done to back the British forces in the Caucasus intervene to save Armenia."

Under date of July 24 Major Green telegraphs:

"The Turks and Tartars are advancing in the districts of Karabagh and Alaghez. They now occupy approximately the re-opened territory of Russian Armenia. Khalil Bey, a Turkish colonel, is commanding the Azerbaijan Tartars."

SPECIAL SESSION FOR DAKOTA LEGISLATURE

Bismarck, N. D., July 31—Governor Lynn J. Frazier of North Dakota today pledged that a special session of the legislature would be called to ratify woman suffrage. He made such pledge, it was announced, to members of the National Woman Suffrage committee. The governor did not commit himself to a certain date. Other matters, he said, would also make the session necessary.

Paris—The American Society for French wounded has decided to build at Rheims, at a cost of \$100,000, an American memorial hospital.

Study the Drew Line of Barn Equipment—then buy.

EVERY article contains features that we know you'll want because you need them, and combinations of features that you can't get elsewhere. This means that other lines are less complete in the practical things that will save you time, labor and trouble. These were the things we were hunting for in your interest when we compared lines before making selling connections for this year.

Because we chose the Drew you may have confidence in them—we stand back of them and stake our reputation for judgment as buying agent for you on them.

Pretty safe "bet" that we've gone about it very carefully—pretty sure thing that you should study the Drew Line before buying.

Our line comprises: Mangers, Steel Stalls, Cow, Calf and Bull Pens, Feed Boxes, Hay Racks, Feed Trucks, Litter, Feed and Ensilage Carriers, Steel Columns, Cupolas and Ventilators, Watering Systems, Milking Machines, Milking Stools, Cork Brick, Tank Heaters, Feed Troughs, Cow Salvers, Drains, Etc. Barn Plans and Expert Advice.

PHONE INSTALLING CHARGE ABANDONED

Wire Companies Plan Extensive Improvements Following Return of Lines

Minneapolis, Aug. 1—Abolition of all special installation charges in addition to the regular charge of \$3.50 for changed telephones, was announced today by L. H. Merrill, district commercial superintendent of the Northwestern Telephone Exchange company, upon the return of telegraph and telephone companies to private management. Mr. Merrill said the company will begin to install new telephones as fast as applications come in.

OFFICERS DEMAND PROBE

Hardships on Transport Arouse Ire of Seventy

New York, July 31—Seventy Pennsylvania officers who asserted they represented approximately 1,000 other casual officers who returned from France, Wednesday on the transport Zeppelin, last night made public a letter prepared at sea, demanding congressional investigation of "hardships" and "degradations" they were made to suffer en route.

The Test That Tells

There is only one real test for a cough remedy, and that is use. S. M. Oliver, Box 192 R. F. D. 5, Greensboro, S. C., writes: "Foley's Honey and Tar is just fine. I keep it in the house all the time. It soothes and relieves hay fever asthma, coughs, colds, croup, and bronchial affections. H. P. Dunn. mwf

Lift off Corns!

Doesn't hurt a bit and Freezone costs only a few cents.

With your fingers! You can lift off any hard corn, soft corn, or corn between the toes, and the hard skin calluses from bottom of feet.

A tiny bottle of "Freezone" costs little at any drug store; apply a few drops upon the corn or callus. Instantly it stops hurting, then shortly you lift that bothersome corn or callus right off, root and all, without one bit of pain or soreness. Truly! No humbug!

Dangers of Hot Weather
Anyone is doubly liable to ill effects from the hot sun when stomach and bowels are clogged with a mass of undigested food. If you suffer from sick headache, biliousness, bloating, "heaviness" or any ill caused by indigestion take a Foley Cathartic Tablet and you will feel better in the morning. H. P. Dunn. mwf

ACTION OF SENATE HARD TO PREDICT

BOTH SIDES OF THE LEAGUE OF NATIONS CONTROVERSY SEEM TO BE DETERMINED.

OPPOSITION IS NOT UNITED

Proponents of Treaty As it Stands Count on That Fact—Milder Objectors May Not Accept Drastic Report of Lodge Faction.

By EDWARD B. CLARK.

Washington—Amendments, reservations, interpretations—these three methods have been suggested by senate opponents of the League of Nations covenant as furnishing proper means of changing it to their liking. Is any one of the methods to prevail? Naturally enough the proponents of the league in the senate, and those outside the senate who are of the administration's view, hold firmly today to the belief they have held from the first, that no changes will be made in the covenant and that the United States will sanction it just as it was brought from Paris.

On the other hand, the opponents of the league declare positively that they have fifty-one votes in favor of certain changes. With the conflict of opinion as it is, it is of course next door to

Impossible definitely to predict the outcome in the senate, but it is possible to set forth certain existing facts in the case which men here have to face, whether they like them or not.

The committee on foreign relations of the senate, which now is discussing the covenant with a view to making a report thereon, holds a majority which is opposed to the League of Nations as the president presented it. It is a fact also that the majority in opposition in this committee is composed of men particularly in favor of drastic amendments, a condition which does not exist so far as the main body of the opponents of the league in the senate itself is concerned.

Count on Divided Opposition.

In other words, the proportion of opponents to any kind of a league in the foreign relations committee is greater than the proportion of like opponents in the senate itself. There are many senators in opposition who are only partly in opposition, a condition which does not hold to the same extent among the opposing members in the foreign relations committee.

The proponents of the treaty in the senate are depending for the final sanctioning of the document just as it stands on the undoubted fact that the opposition is divided as to what kind of changes should be made in the document. The proponents of the league feel that where opposition is divided as to ways and means it may tire itself out in the efforts of each faction to have its way and that eventually acquiescence in the whole covenant will come.

On the other hand the opponents of the treaty, whether they are of the

SPORTS

THE CHAMPIONSHIP GAME ON SUNDAY

Little Falls Plays Brainerd Here at Koering Field to Decide the Season's Honors

PATTERSON PITCHES FOR BRD.

Capacity of Baseball Park to be Taxed to the Limit in Biggest Game of Season

The much-talked of game between Brainerd and Little Falls, old time rivals, is near at hand and the interest shown in the coming battle indicates that the largest crowd witnessing a game for many years here will be the result.

The game, in itself, would attract more than passing attention because the teams are very evenly matched, have always been bitter rivals, and are up in the pennant race, but the added fact that the final result will assure either one or the other of winning the pennant in the Central Minnesota Baseball League, gives the game an added attraction with which to lure the baseball bugs into the park Sunday.

Everybody in Brainerd and Little Falls, who boasts of a drop of good, red sporting blood, will be on hand to root for his favorite team.

The cars coming from Little Falls will make the McGarry-Walker tour look small in comparison and the Brainerd "cheese box" will be taxed to its full capacity.

The line-up of the two teams will be the same as in the last few games played. Patterson and Fuller will be in the points for the locals while Woods and Armstrong will act for "Beerless Town." The down-river pitcher received a telegram from Detroit in the American League offering him big money to report to them at once, however he will be seen in the box for Little Falls Sunday in his duel against Patterson of Brainerd.

Little Falls base all their hopes of winning on their high-class pitcher, and while the locals are not over-confident, they are sure of giving him a hard fight, and besides, have a high-class pitcher themselves.

The game is almost sure to be close and a low score is predicted. The umpires have not been selected but will be picked some time today.

strong school or the mild school, are firm in their statements that eventually they will get together and propose certain changes which all of the members of the opposition can agree to, and that with harmony the amendments, reservations or interpretations, whatever they are, will be adopted by a small but certain majority.

Opponents of the treaty today are wondering if the president, in case he should find that the opposition succeeds in harmonizing its internal difficulties and in fixing upon a program of mild changes, will accept these changes rather than withhold the treaty, keeping it in the state department, as he has a right to do, for further reference and use.

No Amendments, Says President.

The answer to this questioning mood of the opponents of the treaty as it comes from close friends of the administration is that Mr. Wilson believes that an amended covenant, that is the covenant amended as the opposition has suggested, is almost as bad as no covenant at all, so far as the participation of the United States is concerned, and that it must be a case of the covenant as it is, or that he will not give adverse action administrative sanction.

The leader of the opposition to the league, who also happens to be the Republican leader of the senate, is having his difficulties today, and there is no Republican to deny it. His chief difficulty lies in the fact that whilst he seems to be convinced that he has a majority back of him in opposition to the covenant, this majority is divided into schools of thought. It will take canny leadership to bring all of the conflicting schools together.

Another trouble which confronts Senator Lodge is the fact that the majority of the foreign relations committee, with himself as its chairman and leader, probably will formulate a report which will be too drastic for the acceptance of the milder opponents of the league on the floor of the senate. Democrats as well as Republicans, for there are two or three Democrats who are opposed to the league just as there are some Republicans who are in favor of it.

Old time senators and the elder generation of Washington correspondents say today that never before so far as they can remember has there been such uncertainty as to the outcome of any great issue which has been before the senate.

All the Difference.

"A heap depends on location," said Uncle Eben. "What some folks calls a flower ain't austin' but a weed when it grows up in de wrong place."

Young Australian Tennis Star, Fresh From English Conquests, Who Is Invading U. S.

This photograph shows Gerald Patterson, the young Australian tennis star, playing at Wimbledon, where he defeated the veteran Norman E. Brookes, his teacher on the courts and the title holder, in the finals of the championship. Patterson, with Brookes and two other Australian tennis experts are due soon in the United States to try for further honors.

Jack Dempsey would do well to do his title-defending on this side of the ocean. New Jersey would like to see Beckett or Carpenter in action against the champion and it would pay Kearns to insist on the fight's being staged in this country. Dempsey is champion and has the privilege of naming the site for a championship encounter. He will make no mistake if he exercises it.

Beginning the Quarrel.

Mr. Styles—"So you have changed your mind?" Mrs. Styles—"Yes, I have." Mr. Styles—"When did you change it?" Mrs. Styles—"While I was changing my dress." Mr. Styles—"But it doesn't usually take as long as that, dear."—Yonkers Star.

Franklin Still Popular.

Books printed by Benjamin Franklin, or on the composition of which he worked, command high prices. At a sale in Philadelphia of a library containing books that had belonged to a signer of the Declaration of Independence, no less than thirty of these rarities, many of them bearing Franklin's imprint, were disposed of.

No Salt Exhaustion.

Fuel eventually will be exhausted, as also will many other necessities, but not so with salt. Drillers for oil in Texas and Louisiana recently found great salt deposits a few hundred feet below the surface. Some of these beds were 2,000 feet thick.

DISCHARGED SERVICE MEN TO GET AID

Districts Named Where War Risk Insurance Beneficiaries May Be Treated.

Organization of fourteen medical districts, where discharged soldiers, sailors and marines who are beneficiaries of the war-risk insurance act may obtain necessary treatment, was announced by Surgeon General Ireland. The districts will be under the supervision of the public health service, and a health officer will be in charge at each headquarters.

The districts, territory covered and officer in charge are as follows:

Boston customhouse—Maine, New Hampshire, Vermont, Massachusetts and Rhode Island; Surgeon W. W. King.

New York, 280 Broadway—Connecticut, New York and New Jersey; Surgeon F. C. Smith.

Philadelphia, 410 Chestnut street—Pennsylvania and Delaware; Surgeon G. L. Collins.

Atlanta, Chamber of Commerce building—North Carolina, South Carolina, Tennessee, Georgia and Florida; Past Assistant Surgeon J. A. Watkins.

New Orleans, 400 Audobon building—Alabama, Mississippi and Louisiana; Past Assistant Surgeon C. H. Waring.

Cincinnati, 705 Neave building—Indiana, Ohio and Kentucky; Surgeon D. E. Robinson.

Chicago, 512 Garland building—Illinois, Michigan and Wisconsin; Dr. Bert W. Caldwell.

St. Louis, 1601 Syndicate Trust building—Nebraska, Iowa, Kansas and Missouri; Past Assistant Surgeon W. C. Witte.

St. Paul, 744 Lowry building—Minnesota, North Dakota, South Dakota and Montana; Surgeon H. M. Bracken.

Trinidad, Colo.—Wyoming, Utah, Colorado and New Mexico; Surgeon Frederic J. Pierce.

San Francisco, Marine hospital—Arizona, Nevada and California; Surgeon John D. Long.

Portland, 905 Electric building—Washington, Idaho and Oregon; Dr. E. E. Cable.

San Antonio, Texas—Oklahoma, Texas and Arkansas; Surgeon C. H. Gardner.

Philippine Islands, Manila—Past Assistant Surgeon L. R. Thompson.

Porto Rico, San Juan—Porto Rico and the Virgin Islands; Assistant Surgeon Carl Michel.

WORRY KILLED THE CAT

A Want Ad. Got Another Household Pet.

THE COMFORTS of the American Home

It is a well-known fact that, home for home, the American household has more comforts and conveniences than that of any other nation.

In foreign lands the modernized dwelling is found only in the better sections of the larger cities.

In America, even in remote rural districts, you find the piano, the vacuum cleaner, washing machines, up-to-date heating systems, telephones and numberless electrical appliances.

There is a well-kept look about residence, store or out-buildings with an atmosphere of prosperity and content.

Did you ever stop to realize why this is so; how the condition was brought about?

It is largely due to advertising. And a big share of the credit belongs to newspaper advertising.

Stop and think how many of the foods you eat, the things you wear and other articles entering into your everyday life, you first heard of through newspaper advertisements.

You will then realize what a part they do play, or should play, in your daily life.

Read the advertisements, in the newspapers regularly and thoroughly, if you are not already doing so. They mean more to you than you can tell.
